Policies
For
30-Day Review

The board expects all employees to maintain the highest professional, moral, and ethical standards in their interactions with students. Employees are required to provide an atmosphere conducive to learning through consistently and fairly applied discipline and established and maintained professional boundaries. Employees are expected to motivate each student to perform to his or her capacity while modeling the behavior expected of students in staff-student relationships.

The interactions and relationships between staff and students must be based upon cooperation, mutual respect, and an understanding of the appropriate boundaries between adults and students inside and outside of the educational setting. Employees are expected to demonstrate good judgment and to avoid the appearance of impropriety in their interactions with students. Employees must consult their supervisor any time they suspect or are unsure whether conduct is inappropriate or otherwise constitutes a violation of this or other board policy.

For the purposes of this policy, the terms “staff” and “employees” include independent contractors and school safety officers, but do not include student employees.

A. ROMANTIC RELATIONSHIPS AND SEXUAL CONTACT PROHIBITED

All employees are prohibited from dating, courting or entering into a romantic relationship or having sexual contact with any student enrolled in the school district regardless of the student's age. Employees engaging in such inappropriate conduct will be subject to disciplinary action, up to and including dismissal and may be subject to criminal action as provided in G.S. 14-202.4 and 14-27.32. Further, school system personnel shall provide no assistance to an employee in finding another job, beyond the routine transmittal of personnel or administrative files, if the employee engaged in sexual misconduct with a minor or a student in violation of the law.

B. RESTRICTIONS OF ELECTRONIC COMMUNICATIONS

1. In accordance with policy 7335, Employee Use of Social Media, employees are prohibited from communicating with current students through non-school-controlled social media without parental permission except to the extent that the employee and student have an appropriate relationship which originated outside of the school setting. Any communication through social media authorized under policy 7335 must meet the professional standards established in this policy and must otherwise be consistent with law and all other board policy.
2. Instant messages will be treated as a form of communication through social media subject to the terms of policy 7335 and subsection B.1 above, regardless of whether the messaging service is actually provided through a social media service or otherwise.
3. Employees are prohibited from engaging in other forms of one-to-one electronic

communications (e.g., voice, voice mail, email, texting, and photo or video transmission) with students without written prior approval of the employee's supervisor and the student's parent. This rule shall not apply, however, if one or more of the following circumstances exist:

- a. the communication (1) is for an educational purpose, (2) is conducted through a school system-provided platform which archives all such communications for a period of at least three years (this requirement does not apply to telephone or voice mail communications), and (3) occurs after the employee has given prior notice to his or her supervisor or designee that such communications will occur;
- b. the communication serves an educational purpose and is simultaneously copied or transmitted to the employee's supervisor or designee and, upon request, to the parent or guardian;
- c. the communication is necessary in a bona fide emergency, provided the communication is disclosed to the supervisor and parent or guardian as soon as reasonably possible; or
- d. the communication derives from a relationship or association outside of the school setting and occurs with the consent of the parent or guardian, provided such communication does not otherwise violate this or other board policy.

Any one-to-one electronic communication permitted by this subsection must meet the professional standards established in this policy and must otherwise be consistent with law and all other board policies.

4. It is the duty of every employee to notify his or her supervisor of any unsolicited one-to-one communication, in any form, electronic or otherwise, received from a student when the communication lacks a clear educational purpose. School counselors are excluded from this requirement only to the extent that it conflicts with their professional duties.
5. Violations of this section will be considered unprofessional behavior subject to discipline, up to and including dismissal. Factors that may be relevant to the determination of an appropriate disciplinary response to unauthorized communications with students include, but are not limited to:
 - a. the content, frequency, subject, and timing of the communication(s);
 - b. whether the communication(s) was appropriate to the student's age and maturity level;

- c. whether the communication(s) could reasonably be viewed as a solicitation of sexual contact or the courting of a romantic relationship, including sexual grooming;
- d. whether there was an attempt to conceal the communication(s) from the employee's supervisor and/or the student's parent or guardian;
- e. whether the communication(s) created a disruption of the educational environment; and
- f. whether the communication(s) harmed the student in any manner.

C. REPORTING INAPPROPRIATE CONDUCT

1. Reporting by Employees

Any employee who has reason to believe any of the following shall immediately report that information to the superintendent or designee:

- a. that another employee is involved in a romantic or other inappropriate relationship or has had sexual contact with a student;
- b. that another employee has engaged in other behavior prohibited by this policy;
- c. that the employee has witnessed behavior by another employee that has the appearance of impropriety, whether or not the behavior may have a valid purpose.

An employee who fails to inform the superintendent or designee as provided in this section may be subject to disciplinary action, up to and including dismissal.

2. Reporting by Students

Any student who believes that he or she or another student has been subject to misconduct that violates this policy should immediately report the situation to the principal, school counselor, or the Title IX coordinator designated in policy 1720/4015/7225, Discrimination, Harassment, and Bullying Complaint Procedure.

3. Report of Criminal Misconduct

Any principal who has reason to believe that a student has been the victim of criminal conduct shall immediately report the incident in accordance with policy 4335, Criminal Behavior.

The board is committed to the safety of students and other persons on school property. In order to maintain a safe school environment, the superintendent and all school personnel shall enforce the provisions of this policy at all times.

A. REGISTERED SEX OFFENDERS BANNED FROM ALL SCHOOL PROPERTY

In accordance with G.S. 14-208.18, all persons who (1) are required to register under the Sex Offender and Public Protection Program AND (2) have been convicted of (a) any offense in Article 7B of Chapter 14 of the General Statutes, (b) any federal offense or offense committed in another state, which if committed in this state, is substantially similar to an offense in Article 7B, or (c) any offense in which the victim was under the age of 18 years at the time of the offense are expressly forbidden to knowingly be present on any property owned or operated by the school system, including school buildings, athletic fields, playgrounds, parking lots, school buses, activity buses or other property of any kind for any reason, including attendance at sporting events or other school-related functions, whether before, during, or after school hours. In addition, sex offenders subject to G.S. 14-208.18 may not attend or be present at any student function or field trip on or off school property that is (1) school-sponsored or (2) otherwise under the official supervision or control of school personnel. This policy applies to all covered sex offenders regardless of their relationship to or affiliation with a student in the school system. (Refer to the North Carolina Attorney General's publication *The North Carolina Sex Offender & Public Protection Registration Program*, p.13, for a description of which offenders are subject to G.S. 14-208.18 and thus, this policy.)

B. ENFORCEMENT

All school personnel must immediately report to a school administrator the presence or suspected presence of a known or suspected registered sex offender on school property. School administrators and other supervisory personnel shall report to the superintendent and law enforcement when they reasonably believe that a registered sex offender is or has been on school property or at a school event.

School administrators also shall notify the superintendent or designee of any known student or parent or guardian of a student at their school who is suspected to be a registered sex offender.

C. EXCEPTIONS

A person who is banned from school property under G.S. 14-208.18 may be on school property only under the following circumstances.

1. Students

Students who are subject to G.S. 14-208.18 may be on school property only in accordance with policy 4260, Student Sex Offenders.

2. Voters

Voters who are subject to G.S. 14-208.18 and are eligible to vote may be present on school property for the sole purpose of voting if the school property is being used as a voting place. The voter must notify the principal of the school that he or she is registered under the Registry Program and the voter must remain at all times in the portion of the school being used as the polling place. The voter must leave school grounds immediately after voting.

3. Parents or Guardians

a. An individual who is subject to this policy and is the parent or guardian of a student enrolled in school may be on school property only for the following reasons:

- 1) to attend a scheduled conference with school personnel to discuss the child's academic or social progress; or

b. For each visit authorized by the principal in accordance with subsection (a) above, the parent or guardian must provide the principal with prior written notice of his or her registration on the Sex Offender Registry and notice of his or her presence at school. Notice of his or her presence at school includes the nature and specific times of the visit.

c. For each visit authorized by subsection (a) above, the parent or guardian must arrange to meet a staff member at the edge of school property, check in at the principal's office upon arrival and departure, and remain under the direct supervision of school personnel at all times. If school personnel are not available to supervise the parent or guardian during any visit, then the parent or guardian will not be permitted to enter or remain on school property.

d. For each visit authorized by subsection (a) above, the parent or guardian must comply with all reasonable rules and restrictions placed upon him or her by the principal, including restrictions on the date, time, location, and length of meeting.

D. CONTRACTUAL PERSONNEL

In order to ensure compliance with this policy, each contract executed by the board must include a provision that requires the other party to the contract to conduct an annual check of the State Sex Offender and Public Protection Program and the State Sexually Violent Predator Registration Program on all employees who may be sent to perform tasks on or deliver products to school property. Persons who are subject to section A of this policy may not be sent onto school property for any reason.

In addition, each time the board enters into any contract or agreement for contracted services that involve direct interaction with children, the contract must include a provision that requires the other party to the contract to conduct an annual check of the National Sex Offender Registry on all contracted employees who may have direct contact with children.

No contractor or employee of a contractor registered with the State Sex Offender and Public Protection Program, the State Sexually Violent Predator Program, or the National Sex Offender Registry may have direct interaction with children. SCHOOL BUS IDLING

Policy Code: 6306

The board recognizes that emissions that accumulate from school buses can be harmful to students and bus drivers. The board further recognizes that unnecessary bus idling wastes fuel and financial resources. The board is committed to transporting students on school buses in a manner that is safe and consistent with the board's goal of resource conservation. To this end, the board prohibits all unnecessary school bus idling on school grounds. In addition, the board prohibits the warming up of buses for longer than five minutes, except in extraordinary circumstances or circumstances beyond the bus driver's control.

This policy applies to school buses and activity buses when these buses are used to transport students to or from school, extracurricular activities, field trips, and other school-related activities.

The superintendent shall develop procedures consistent with this policy. The superintendent or designee shall ensure that school bus drivers and appropriate school personnel receive training to implement this policy.

The board intends to comply fully with all licensure requirements of the Elementary and Secondary Education Act, state law, and State Board of Education policies.

A. LICENSURE AND OTHER QUALIFICATION REQUIREMENTS

1. Except as otherwise permitted by the State Board of Education or state law, a professional employee must hold at all times a valid North Carolina license appropriate to his or her position.
2. To the extent possible, all professional teaching assignments will be in the area of the professional employee's license except as may be otherwise allowed by state and federal law and State Board policy. In addition, all professional teachers employed to teach core academic subjects must be "highly qualified" as required by the State Board of Education. Core academic subjects include English, reading or language arts, mathematics, science, foreign languages, civics and government, economics, arts, history, and geography.
3. The board encourages lateral entry into the teaching profession by skilled individuals from the private sector who meet state licensing requirements.

B. EXCEPTIONS TO LICENSURE REQUIREMENTS

1. Emergency Permit to Practice

In extenuating circumstances when no other appropriately licensed professionals or persons who are eligible for a lateral entry license are available to fill a position, the board may employ for up to one year an individual who holds an emergency permit to practice issued by the State Board of Education. An emergency permit is not renewable.

2. Adjunct CTE Instructors

An unlicensed individual who meets the adjunct hiring criteria established by the State Board of Education for a specific career and technical education (CTE) career cluster may be employed as an adjunct CTE instructor for up to 10 hours per week, provided the individual first completes preservice training and meets all other statutory requirements for serving as an adjunct instructor established by G.S. 115C-157.1.

C. BEGINNING TEACHER SUPPORT PROGRAM

The superintendent or designee shall develop a plan and a comprehensive program for beginning teacher support. The plan must be approved by the board and kept on file for review. The superintendent or designee shall submit an annual report on the Beginning

Teacher Support Program to the Department of Public Instruction (DPI) by October 1 of each year. The report must include evidence of demonstrated proficiency on the Beginning Teachers Support Program Standards and evidence of mentor success in meeting Mentor Standards. The school system will also participate in implementing a regionally-based annual peer review and support system.

Teachers with fewer than three years of teaching experience will be required to participate in the Beginning Teacher Support Program.

D. LICENSE CONVERSION

Teachers must teach three years and meet all other requirements of the State Board of Education in order to move from an initial to a continuing license. Licensing is a state decision and cannot be appealed at the local level. The superintendent or designee shall ensure that teachers not qualifying for continuing licensure are informed of the process for appealing the state decision.

E. LICENSE RENEWAL

Licensure renewal is the responsibility of the individual, not of the school system. Any employee who allows a license to expire must have it reinstated prior to the beginning of the next school year. A teacher whose license has expired is subject to dismissal.

The school system may offer courses, workshops, and independent study activities to help school personnel meet license renewal requirements. Any renewal activity offered must be consistent with State Board of Education policy. In addition, the superintendent or designee shall develop a procedure to determine the appropriateness of any credit offered in advance of renewal activities.

Decisions regarding the employment of teachers who fail to meet the required proficiency standard for renewal of a continuing license will be made in accordance with state law G.S. 115C-296(b)(1)b.4 and applicable State Board of Education requirements.

F. PARENTAL NOTIFICATION

At the beginning of each school year, the school system will notify the parents or guardians of each student attending a Title I school or participating in a Title I program of their right to request the following information about qualifications of their child's teacher: whether the teacher has met NC licensing requirements for the subject or grade level they are teaching; whether the teacher has had any licensure requirements waived; whether the teacher is teaching in the field of his or her certification; and whether the child is provided services by a paraprofessional, and if so, the paraprofessional's qualifications.

The school system will give notice within 10 school days to the parents of children who, after four consecutive weeks, have been taught a core academic subject by a teacher who is not highly qualified.

G. EQUITABLE DISTRIBUTION OF TEACHERS

The superintendent shall assess whether low income, minority, learning disabled, and/or English learners are being taught by inexperienced, ineffective, or out-of-field teachers ~~to~~ at higher rates than students who do not fall into these categories and shall develop a plan to address any such disparities. If DPI does not require such a plan of the LEA, the superintendent is not required to develop a plan under this subsection unless he or she determines that one is needed to address inequities within the school system.

DRUG AND ALCOHOL TESTING OF COMMERCIAL MOTOR VEHICLE OPERATORS

Policy Code:

7241

The purpose of this policy is to help ensure safe operation of school vehicles and to comply with federal law and regulations by establishing a comprehensive program of drug and alcohol testing for school bus drivers and all other commercial motor vehicle operators employed by the board of education.

A. APPLICABILITY

This policy applies to any driver which, for purposes of this policy, is defined as any employee, volunteer or independent contractor who operates a commercial motor vehicle in the course of duties for the board of education, including anyone who regularly or intermittently drives a school bus, activity bus, a vehicle designed to transport 16 or more people, (including the driver) or any other vehicle that meets the definition of commercial motor vehicle under federal law or regulation. Employees who operate vehicles for inspection, service, or maintenance purposes are included in this definition.

B. PROHIBITED ACTS

No driver may:

1. operate any school bus or school activity bus while consuming alcohol or while alcohol remains in the driver's body, in violation of G.S. 20-138.2B;
2. use alcohol while performing safety-sensitive functions;
3. perform safety-sensitive functions within four hours after using alcohol;
4. report for or remain on duty requiring the performance of safety-sensitive functions when the driver uses any Schedule I drug or substance; or
5. report for or remain on duty requiring the performance of safety-sensitive functions when the driver uses any non-Schedule I drug or substance, unless such use is pursuant to the instructions of a licensed medical practitioner who is familiar with the driver's medical history and has advised the driver that use of the substance will not adversely affect the driver's ability to safely operate a commercial motor vehicle.

Safety-sensitive functions include, but are not limited to, inspecting, servicing, or conditioning any commercial motor vehicle; operating any commercial motor vehicle;

participating in or supervising the loading or unloading of a commercial motor vehicle; and repairing, obtaining assistance for, or remaining in attendance upon a disabled vehicle.

In addition, drivers and anyone who supervises drivers, will not commit any act prohibited by federal law, including “Controlled Substance and Alcohol Use Testing” (49 C.F.R. pt. 382, hereinafter referred to as Part 382 or by board policy 7240, Drug-Free and Alcohol-Free Workplace.

C. TESTING

The administration will carry out pre-employment, post-accident, random, reasonable suspicion, return-to-duty and follow-up testing for drugs and alcohol as required by Part 382.

Federal regulations prohibit a driver who is tested under the provisions of this section and found to have an alcohol concentration of at least .02 from performing safety-sensitive functions for at least 24 hours following administration of the test. Drivers who are tested under the provisions of this section and found to have any alcohol in their system are subject to additional discipline under this policy, including dismissal.

D. PRE-EMPLOYMENT INQUIRY

All applicants who would be subject to this policy if employed by the board must consent in writing to the release of any information gathered pursuant to Part 382 by any of the applicant’s previous employers.

Before employing any applicant subject to this policy or Part 382, the administration shall obtain, pursuant to written consent, all records maintained by the applicant’s previous employer of prohibited acts committed by the applicant in the two years prior to the inquiry date.

E. TRAINING AND EDUCATION

Each driver and supervisory employee, including principals and assistant principals, must be provided with educational materials that inform the employees of drug testing procedures, prohibited acts, consequences and other aspects of Part 382, this policy and any accompanying administrative procedures. The information also will identify a school district employee who is responsible for providing information on substance abuse. Each employee must sign a statement certifying his or her receipt of these materials.

Each supervisor responsible for overseeing the performance of drivers, including principals and assistant principals, must undergo at least one hour of training concerning alcohol misuse and an additional hour of training concerning drug abuse.

F. REFERRALS

Each driver who violates acts prohibited by Part 382 or G.S. 20-138.2B, other than provisions governing pre-employment testing, will be provided with information concerning resources available for evaluating and resolving drug or alcohol misuse. This information will include names, addresses and telephone numbers of substance abuse professionals and counseling and treatment programs. Before any driver, who has committed a prohibited act under Part 382 or G.S. 20-138.2B will be allowed to drive again, he or she must be evaluated by a substance abuse professional and must satisfactorily complete any appropriate treatment that the substance abuse professional designates.

G. PENALTIES

Employees who have committed a prohibited act, refused any test required by this policy; or otherwise violated this policy, G.S. 20-138.2B or Part 382, will be subject to disciplinary action, up to and including dismissal.

H. PROCEDURES

All procedures for collection and testing provided in the Federal Highway Administration's "Procedures for Transportation Workplace Drug Testing Programs" (49 C.F.R. pt. 40) and all requirements in Part 382, including testing, reporting, record retention, training and confidentiality, will be followed. Copies of these federal regulations will be readily available. The superintendent shall develop any other procedures necessary to carry out these regulations.

The board recognizes that an effective staff is critical to the smooth operations of the school system and to creating a learning environment in which students can succeed. The board further believes that students will not excel in performance unless those who most directly affect students, including school administrators, teachers, and other licensed professionals, excel in their performance. For the purposes of this policy, the term “school administrator” is defined as a principal, assistant principal, supervisor, or director whose major function includes the supervision of teaching or any other part of the instructional program.

A. STANDARD FOR INITIAL, EXTENDED, OR RENEWED CONTRACTS

School administrator contracts will be granted, extended, or renewed only for individuals of proven ability who strive for excellence. School administrators should be able to facilitate student learning and effectively carry out the responsibilities of providing for school safety and enforcing student discipline. The superintendent is expected to be able to substantiate any recommendation for granting a new contract, extending a current contract, or renewing a contract with evaluation data, as described in policy 7810, Evaluation of Licensed Employees, or with regard to applicants, with data from the selection process as provided in policy 7100, Recruitment and Selection of Personnel. If the board is not satisfied that an applicant or employee has met the standards established by the board, employment will be denied, following statutorily prescribed procedures and other applicable legal requirements.

B. TERM OF CONTRACT

1. Initial Contracts

Initial contracts between a school administrator and the board will be for a term of two to four years. Four-year initial contracts will be granted only to exemplary school administrators. Absent unusual circumstances, two-year initial contracts will be granted for individuals who do not have experience as school administrators. In addition, one-year contracts may be granted to individuals who hold a provisional assistant principal’s license.

2. Subsequent Contracts

Subsequent contracts between a principal or assistant principal and the board will be granted for a term of four years.

C. PERFORMANCE EXPECTATIONS

An employee who has a school administrator contract with the school system is expected to continue to strive for excellence, meet all performance standards established by the board, and pursue professional development as provided in policy 1610/7800, Professional

and Staff Development. Any employee who is unable or unwilling to meet reasonable standards of the board may be subject to demotion or dismissal, as provided in policy 7930, Professional Employees: Demotion and Dismissal, and in accordance with statutorily prescribed procedures.

D. PROCEDURE FOR NEW, RENEWED, OR EXTENDED CONTRACTS

1. Decisions of the superintendent and board with regard to recommendations and offers and decisions not to recommend or offer new, renewed, or extended contracts will be made in accordance with G.S. 115C-287.1.
2. If the superintendent decides not to recommend that the board offer a school administrator a new, renewed, or extended contract, the employee has all procedural rights accorded by G.S. 115C-287.1.
3. In considering a recommendation of the superintendent to offer a school administrator a new, renewed, or extended contract, the board may review any information that was in the employee's personnel file at the time of the superintendent's recommendation. If the board determines that it needs additional information to reach a decision, it will notify the administrator of the board's concerns and of the additional information that it is considering and provide an opportunity for the employee to respond to the additional information.

A. GENERAL EMPLOYMENT OF SUBSTITUTES

The school system will employ substitute teachers as deemed appropriate by the administration and in accordance with State Board policies. The board recognizes the importance of employing licensed teachers as substitutes and will give first priority to substitutes who hold or have held any teaching license and second priority to those who have completed Effective Teacher Training or comparable professional development courses. Teaching experience also will be considered.

A criminal history check will be conducted on applicants for substitute teaching positions in accordance with policy 7100, Recruitment and Selection of Personnel, and administrative procedures.

B. TEACHER ASSISTANTS AS SUBSTITUTES

A teacher assistant may serve as a substitute teacher in the classroom(s) in which the assistant is regularly assigned and will be paid additional compensation according to state policies.

C. PARENTAL NOTIFICATION

In accordance with policy 1320/3560, Title I Parent and Family Engagement, school principals shall notify the parent of any child who receives instruction in a core academic subject for four or more consecutive weeks from a substitute teacher who does not meet the certification and licensure standards for the grade level and subject area to which the substitute teacher has been assigned.

The employee's right of citizenship involving registering, discussing political issues, voting, campaigning for candidates or issues, running for or serving in public office, and participating on a committee or board which seeks to serve the welfare of the community, will not be infringed upon due to employment in the school district.

These political activities will not:

1. take place during school time;
2. involve school monies or materials; or
3. make use of an official school position to encourage or to coerce students or other employees of the district to support in any way a political party, candidate or issue.

As specified in Official School Spokesperson, policy 2220, the chairperson of the board or designee and the superintendent or designee are the official spokespersons for the school system. Employees, when exercising their rights as citizens, should take steps to ensure that their personal political opinions are not erroneously attributed to the school board or the school system.

This policy should not be construed as prohibiting the impartial study and discussion of political or other controversial issues in the classroom setting.

The board recognizes that an effective staff is critical to the smooth operation of the school system and to creating a learning environment in which students can succeed. The board further believes that students will not excel in performance unless those who most directly affect students, including school administrators, teachers, and other licensed professionals, excel in their performance. It is the intent of the board to employ only those licensed employees who continuously exhibit a pattern of behavior that exemplifies excellent performance.

The board places a high priority on securing the most competent personnel available and, once they are employed, in assisting them in their professional growth and development throughout their careers. An effective evaluation program that clearly describes an employee's performance is a critical aspect of professional growth and assistance. Further, performance evaluation data is an important factor for consideration in decisions regarding continued employment. The superintendent must be able to substantiate any recommendation for continued employment with evaluation data, among other factors.

The superintendent is directed to develop and implement an effective evaluation system for licensed personnel that is consistent with State Board of Education policies. School administrators who are responsible for conducting evaluations shall comply with all state requirements with regard to the type and frequency of evaluation, including as applicable, the processes for evaluating licensed employees in schools designated as low performing. The principal shall evaluate teachers and may incorporate any guidelines or strategies developed by the State Board to assist in the evaluations. The principal shall provide teachers' access to EVAAS data as required by law and shall notify teachers at least annually when the data is updated to reflect teacher performance from the previous school year. The superintendent or designee shall evaluate principals and assistant principals.

All licensed personnel must be evaluated at least annually using state-approved evaluation instruments in conformance with the processes established by the State Board in the North Carolina Educator Evaluation System for that class of personnel. Teachers with fewer than three consecutive years of experience will be evaluated annually in accordance with state law and the comprehensive evaluation cycle established in State Board Policy TVP-C-004. For teachers with three or more years of experience, the abbreviated evaluation process established in State Board Policy TCP-C-004 satisfies the annual evaluation requirement; however, a teacher receiving an abbreviated evaluation may request that the evaluator conduct a formal observation. In addition, in any given year, the principal may elect to use the comprehensive or standard evaluation processes set forth in State Board Policy TCP-C-004 or require additional formal or informal observations to evaluate a teacher with three or more years of experience. The principal also may supplement the State Board evaluation processes for other categories of licensed personnel by requiring additional observations or other evaluation measures. The annual evaluation of principals and assistant principals must include a mid-year review.

The evaluation system must incorporate the following directives.

1. Evaluators must clearly identify exemplary performance as well as deficiencies in performance.
2. Evaluators are encouraged to use supplementary means of assessing and documenting performance in addition to the state performance standards, assessment rubrics, and evaluation instruments, including, but not limited to, additional formal observations, informal observations, conferences, reviews of lesson plans and grade books, interactions with the employee, plans of growth or improvement, and any other accurate indicators of performance.
3. Student performance and growth data will be considered as a part of the evaluation of licensed personnel, as provided in the assessment rubric for the class of employees under evaluation. For teachers, such data shall include analysis of student work for performance-based courses and student performance as measured by the statewide growth model for educator effectiveness or as otherwise authorized by the State Board of Education and approved by the local board. Multiple means of assessing student performance must be used whenever possible. If only one method is used to measure student performance, it must be a clearly valid tool for evaluating an employee's impact on student performance.
4. Peer observations of teachers with fewer than three consecutive years of experience must be conducted as required by law using the evaluation instrument and process established by the State Board and must be considered by the school administrator in evaluating teacher performance.
5. Supervisors and principals should facilitate open communication with employees about performance expectations.
6. An employee who is unclear about how performance is being assessed or who desires additional evaluation opportunities should address these issues with his or her immediate supervisor.
7. Evaluators will be held accountable for following the evaluation system and all applicable state guidelines on the evaluation of employees.
8. Evaluation data will be submitted to the central office personnel file in accordance with state law and policy 7820, Personnel Files.
9. Evaluation data will be used in making employment decisions, including decisions related to professional and staff development (see policy 1610/7800, Professional and Staff Development), and suspension, demotion, and dismissal of employees (see policy 7930, Professional Employees: Demotion and Dismissal and policy 7940, Classified Personnel: Suspension and Dismissal). Employment decisions may be made by the board and administrators regardless of whether evaluators have followed the evaluation system, so long as there is a legally sufficient basis for the decisions.
10. The superintendent and all evaluators are encouraged to develop ways to recognize

distinguished performance and to capitalize on the abilities of such exemplary employees in helping other employees.

Personnel files, which may consist of paper or electronic records, will be maintained in the human resources office for all employees as provided by law. The superintendent and all supervisors are directed to ensure that all appropriate employment-related information is submitted to the files. Employees will be provided with all procedural protections as provided by law.

The superintendent has overall responsibility for granting or denying access to personnel records consistent with this policy.

A. RECORDS MAINTAINED

The following records must be maintained in the personnel file:

1. evaluation reports made by the administration;
2. commendations for and complaints against the employee (see Section C);
3. written suggestions for corrections and improvements made by the administration;
4. certificates;
5. employee's standard test scores;
6. employee's academic records;
7. application forms;
8. any request to the State Board of Education to revoke the employee's teaching license; and
9. other pertinent records or reports.

B. CERTAIN EMPLOYEE RECORDS MAINTAINED SEPARATELY

The following employee information must be kept separate from the employee's general personnel information, in accordance with legal and/or board requirements:

1. Pre-Employment Information

Letters of reference about an employee obtained before his or her employment and, for teachers, any other pre-employment information collected, must be filed separately from the employee's general personnel information and must not be made available to the employee.

2. Criminal Record Check

Data from a criminal history check must be maintained in a locked, secure location separate from the employee's personnel file. The superintendent shall designate which school officials have a need to know the results of the criminal history check. Only those officials so designated may obtain access to the records.

3. Medical Information

Employee medical information, including the following, must be kept in a separate confidential file and may be subject to special disclosure rules:

- a. health certificates (see policy 7120, Employee Health Certificate);
- b. drug test results, except that drug use or alcohol use contrary to board policy or law also may be documented in the employee's personnel file (see policy 7241, Drug and Alcohol Testing of Commercial Motor Vehicle Operators);
- c. information related to an employee's communicable disease/condition or possible occupational exposure to bloodborne pathogens (see policies 7260, Occupational Exposure to Bloodborne Pathogens, and 7262, Communicable Diseases – Employees);
- d. medical information related to leave under the Family and Medical Leave Act (see policy 7520, Family and Medical Leave); and
- e. genetic information, as defined by the Genetic Information Nondiscrimination Act of 2008.

4. Complaints/Reports of Harassment or Discrimination

The superintendent or designee shall maintain records of all reports and complaints of harassment and discrimination and the resolution of such complaints. Allegations of harassment or discrimination must be kept confidential to the extent possible. Employees involved in the allegations will be identified only to individuals who need the information to investigate or resolve the matter, or to ensure that due process is provided to the accused employee (see policies 1710/4021/7230, Prohibition Against Discrimination, Harassment, and Bullying, and 1720/4015/7225, Discrimination, Harassment, and Bullying Complaint Procedure).

If the allegations are substantiated through investigation, the superintendent or designee shall ensure that the provisions of Section C, below, are followed to the extent that they do not conflict with the rights of any individual.

C. PLACEMENT OF RECORDS IN PERSONNEL FILE

All evaluations, commendations, complaints, or suggestions for correction or improvement must be placed in the employee's central office personnel file after the following requirements are met:

1. the comment is signed and dated by the person who made the evaluation, commendation, complaint, or suggestion;
2. if the comment is a complaint, the employee's supervisor has attempted to resolve the issue raised therein and documentation of such efforts is attached with the supervisor's recommendation to the superintendent as to whether the complaint contains any invalid, irrelevant, outdated, or false information; and
3. the employee has received a copy of the evaluation, commendation, complaint, or suggestion five days before it is placed in the file.

All written complaints that are signed and dated must be submitted regardless of whether the supervisor considers the complaint to be resolved.

The supervisor is expected to use good judgment in determining when a document should be submitted to the file immediately and when a delay is justified, such as when there exists a plan of improvement that is frequently revised. However, all evaluations, commendations, complaints, or suggestions for correction or improvement should be submitted by the end of the school year or in time to be considered in an evaluation process, whichever is sooner. The supervisor or principal should seek clarification from the associate superintendent of human resources as necessary to comply with this policy.

The employee may offer a denial or explanation of the evaluation, commendation, complaint, or suggestion, and any such denial or explanation will become part of his or her personnel file, provided that it is signed and dated.

The superintendent may exercise statutory authority not to place in an employee's file a letter of complaint that contains invalid, irrelevant, outdated, or false information, or a letter of complaint when there is no documentation of an attempt to resolve the issue.

As provided in policy 7900, Resignation, if a career employee who has been recommended for dismissal under the applicable state law resigns without the written consent of the superintendent, then: (1) the superintendent shall report the matter to the State Board of Education; (2) the employee shall be deemed to have consented to the placement of the written notice of the superintendent's intention to recommend dismissal in the employee's personnel file; and (3) the employee shall be deemed to have consented to the release to prospective employers, upon request, of the fact that the superintendent has reported this employee to the State Board of Education. For purposes of this provision, "career employee" means (1) a teacher or an administrator with career status, or (2) an administrator or a non-career status teacher during the term of his or her contract.

D. ACCESS TO PERSONNEL FILE

1. Every employee has the right to inspect his or her personnel file, including any portions of the file maintained in electronic format only, during regular working hours, provided that three days' notice is given to the human resources office.
2. The following persons may be permitted to access a personnel file without the consent of the employee about whom the file is maintained:

Five days' written notice will be given to the employee prior to such disclosure.
3. No other person may have access to a personnel file except under the following circumstances:
 - a. when an employee gives written consent to the release of his or her records, which specifies the records to be released and to whom they are to be released;
 - b. pursuant to a subpoena or court order; or
 - c. when the board has determined, and the superintendent has documented, that the release or inspection of information is essential to maintaining the integrity of the board or the quality of services provided by the board.
 - d. the superintendent or designee determines that disclosure to a court of law, or a state or federal administrative agency having a quasi-judicial function, is necessary to adequately defend against a claim filed by a current or former

employee against the board or a school official or employee for any alleged act or omission arising during the course and scope of his or her official duties or employment. Such disclosures will be limited to those confidential portions of the personnel file of the employee who filed the claim and only to the extent necessary for the defense of the board.

4. Each request for consent to release records must be handled separately.
5. It is a criminal violation for an employee or board member to do either of the following:
 - a. knowingly, willfully, and with malice, permit any unauthorized person to have access to information contained in a personnel file; or
 - b. knowingly and willfully examine, remove, or copy a personnel file that he or she is not specifically authorized to access pursuant to G.S. 115C-321.

E. INFORMATION AVAILABLE TO PARENTS OF STUDENTS ATTENDING TITLE I SCHOOLS

The following information about a student's teacher(s) or paraprofessional(s) providing services to a student must be provided upon request to the parent of a student attending a Title I school:

Proposal to Add World History to Middle School Curriculum

World History addresses six (6) periods in the study of World History, with a key focus of study from the mid-15th Century to present. The standards of this course are grouped in a way that reflects accepted periodization by historians.

World History is a freshman level high school course that we would like to offer to students at the middle school beginning with the 2017-2018 school year. The purpose of offering this course to middle school students is to provide students the opportunity to quickly advance into higher levels of Social Studies courses as well as other courses offered at Asheboro High School. At AHS, we offer students a pathway of Advance Placement choices in the Social Studies Department including AP World History, AP U.S. History, and AP Psychology, as well as they opportunity to take dual credit courses at Randolph Community College through the Career and College Promise program.

Why World History?

1. **The alignment with the 7th grade social studies standards.** (see attachment) Alignment between early middle school social studies and World History help to build a foundation for the teacher to increase the depth and rigor for high school credit. With the current amount of high school courses offered to students in the eighth grade, students can be overloaded with extra tests in 8th grade. By offering the course in 7th grade where alignment is greatest with the standards, it will allow for the standards to be compacted together and offered together during the school year. While we honor open enrollment, due to the advanced nature of the course, we will encourage parents to work closely with administrators, teachers, and school counselors to plan for students' educational goals.
2. **Opportunity for student advancement.** Students have opportunity to advance in at Asheboro High School. By allowing students the opportunity to gain high school credit in middle school, students can progress and move into more advanced classes and/or take advantage of the Asheboro High School Early College Academy.
3. **Adding another high school option allows for more personalized options for our advanced students.** Students currently have the option of taking Math I, Spanish I, English I and/or Earth and Environmental Science in middle school to earn a high school credit. With the addition of World History, students will have greater options for personalizing their learning pathway for high school.

How will this course be taught in the middle schools?

No additional personnel would be required. The course would be compacted with the 7th grade Social Studies curriculum or it can be taught through NCVPS (online) if only a small number of students wish to take the course. Teachers will be provided guidance and support by our in-house instructional facilitators and Director of Secondary Education.

Students will still be required to take the 7th grade Social Studies NC Final Exam (NCFE) as well as the World History NCFE. According to ACS Board Policy, both exams will count as 25% of the students' final grade. Pursuant to NC State Board Policy, if students pass the class, they will receive a credit towards graduation; however, they will not receive any points towards their high school GPA.

How will students and parents know about this new opportunity?

All rising 7th grade students and their parents will receive a letter detailing the description of the World History course and what it means to take a high school course in middle school, including exam requirements. Recommendations will be given regarding the criteria set forth above for students interested in taking the course, and contact information for the school counselors will be included on the letter.

After letters are sent home, school counselors will contact students and their families found meeting the above criteria to encourage their participation in the new course option and prepare a plan based on their educational goals.
